ABOUT ME

I am a final-year BCA student with a strong interest in full-stack web development and problem-solving. I have knowledge of frontend and backend technologies, including React, Node.js, Express.js, and MongoDB, along with experience in building responsive and user-friendly web applications. I am a quick learner with the ability to adapt to new technologies and development practices. I am seeking an opportunity to apply my technical and problem-solving skills in a Full-Stack Developer role while contributing to the growth and success of the company.
